

Indiana Coaches of Girls Sports Association

"Committed to Athletic Excellence"

March 17, 2017

I want to thank the executive board for allowing me this opportunity to serve this organization in this leadership role. I will give you my best to live up to the standards established by past presidents and board members.

I accept this position and the responsibilities that go along with serving the history and traditions of this organization. We must remember why this organization was founded 45 years ago and that is to be "Committed to the Athletic Excellence" for all young ladies and the coaches who serve them.

As we move forward this year, we have several challenging changes to be implemented that will take our full cooperation and involve all of us in order to keep this organization moving forward. To do this I feel we must:

- Increase the promotion of our organization
- Increase the promotion of our athletes
- Increase information/training opportunities for the coaches
- Increase the number of Scholarships

I challenge all coaches of girl's sports to step up, support and serve this organization so we all strive toward our main goal -

"Committed to Athletic Excellence"

Sincerely,
Jeff Theobald
